Polling Question

1. If a participant fails to respond to their moment within the 5 business days the RMTS Contact must:
 - A. Document the reason for the missed moment in STAIRS
 - B. Report the incident to the participant's supervisor
 - C. Remove the participant from the PL and exclude from TS
 - D. All of the above

Participant List

Agenda

- Development
- Certification
- Who's In
- Drop Down Options
- System Demonstration

PL - Development

- At the beginning of each quarter only the trained RMTS Contact provides in STAIRS a comprehensive list of staff eligible to participate in the RMTS.
- Once PL is closed you cannot add/delete a participant nor change position/function category.
- Every time the PL is updated, it is also certified.

The RMTS Contact must open the PL and click the “certify the PL” button prior to the deadline, even if there are no changes to the participant list from the previous quarter.

PL - Development

- An accurate PL is a critical part for ensuring eligibility for MAC

If an MH-IDD does not update/certify its PL by the deadline:

They are ineligible to submit a MAC claim for that quarter

- Reminder e-mails will be sent only to those MH-IDDs that have not certified their PL.
- The PL provides a basis to identify the positions that may be included in the MAC claim

PL - Development

Vacant Positions

Inconsistent implementation from year to year and entity to entity

- Only the vacant position(s) the MH-IDD anticipates filling during the quarter should be included on the PL
- Should be reviewed and edited each quarter before the PL closes
- Loading the PL with vacant positions limits the opportunity for the selected moment to be a reimbursable response
- RMTS Contact responds to the moment as paid/unpaid leave
- Excess ultimately lowers the RMTS percentage across the State

PL - Development

Duplicate Positions - What To Do???

- Identify and Remove from PL
- If more than one job function is performed by the participant, only include it once on the PL in the category/function performed majority of the time.
- Email(s) will be sent to those entities identified as having possible duplicate entries.
- HHSC trained RMTS Contact will be responsible for removing duplicate entries prior to the PL close date.

To remove duplicates from the PL do the following:

Export your PL to Excel. Choose the column of data (e.g. address, external ID) that may have duplicates. Highlight that column and choose the “conditional formatting” option. You’ll see an option there to “highlight duplicate values”

It’s easy to identify and remove any duplicates.

PL - Who's In???

Participant List includes:

- Staff who perform MAC activities:
 - Regular duties on a weekly basis
 - Regular Staff
 - Federally funded employees
- Contractors (including all positions) who are not employees of the entity but provide services for entity.
 - For one position being filled by multiple contractors, it should be listed as one position on PL
 - For multiple positions filled by one or more contractors, then each position should be listed on PL.
- Vacant positions that are anticipated to be filled (with reasonably certainty) during the quarter.

Time Study Moment - General

Total pool of moments calculation:

(work days in quarter) x (work hours each day) x (60) x (# of participants)

Time study “moments” are randomly selected throughout the entire quarter

A time study “moment” represents one minute at the selected time

If a participant is sampled for a “moment,” their only responsibility is to document what they were doing at that precise minute

Some options have “hover-over” and/or “question marks” 

that provide additional information that helps the participant make the best selection

RMTS Training & Completion Instructions

You have been selected to participate in the Random Moment Time Study (RMTS) on behalf of your center/district. You are required to complete the following RMTS screens, which will ask a series of questions you will need to answer for your sampled moment. It is important that you complete the RMTS screens as accurately as possible.

1. Keep in mind that you are responding for one precise minute in time. Document what you were doing at the sampled moment of time.
2. Dropdowns and/or optional activity descriptions are provided to assist you. If you do not see a response that applies, choose "other" and you will be provided an explanation box in which you can describe what you were doing.
3. If a blue question mark icon appears at the end of an optional activity description, you may click on the "?" to obtain additional information.
4. The person who will be reviewing your response has no idea of your job description, tasks you perform, or why you perform them, so it is up to you to provide the proper information needed to adequately describe what you were doing at the time of your moment. If you provide insufficient information, you will receive a follow-up email or telephone call requesting additional information.
5. Responses such as the following do not provide sufficient information and should be avoided:
 - "I was doing my job."
 - "I was completing my job responsibilities."
 - "I was completing this time study response."
6. It is best to avoid the use of acronyms and to instead spell out the definition, description, or title.
7. Do not provide client/student-specific names. Instead, your response should state that you were working with a client/student or a group of clients/students, if that were the case.
8. If you are traveling at the time of your sampled moment, please include a description of the activity you will be performing upon arrival.
9. If you were not working at the time of your moment, please indicate if it was paid or unpaid leave/time off.
